

Buy and Sell with Impact

Every purchase has an economic, environmental and social impact. When enterprises operate solely to maximize profit, communities pay the price. The collective effort of leveraging social value from purchasing has a powerful and positive ripple effect on our communities. The future of business is social enterprise.

At Buy Social Canada, we believe in building community capital: healthy communities that are rich in human, social, cultural, physical and economic capital. We are redefining how goods and services are bought and sold.

Find social enterprises making a positive impact

Purchase from a verified social enterprise to grow equity and create vibrant, healthy communities. Search the Certified Social Enterprise Directory for examples from across Canada by location, social value and type of goods or services sold.

Explore Social Enterprise Certification

Join a network of social enterprise leaders across Canada when you become a Buy Social Canada Certified Social Enterprise, and grow your business.

Purchasers are increasingly putting a social value into their purchasing criteria, and they are asking for verification. Buy Social Canada's Social Enterprise Certification increases your visibility and provides evidence of your identity and your commitment to social value.

The future of business is social enterprise: businesses that sell goods or services, embed a social, cultural or environmental purpose, and reinvest the majority of profits into their social mission.

If you meet the definition, apply to become certified.
